What I Can Do

I build modern, scalable, and user-friendly digital solutions that help businesses grow online.

Web Development

Build fast, responsive websites using React, TailwindCSS, and the MERN stack.

Responsive Design

Design layouts that adapt to any device, ensuring the best user experience.

Fullstack Apps

Develop complete applications with frontend, backend, and database integration.

Landing Pages

Create high-converting, professional landing pages for businesses.

My Journey

MERN Stack Practice

Learned to build full-stack apps using MongoDB, Express.js, React, and Node.js. Created projects like a To-Do App and Blog Platform.

Frontend Development

Practiced HTML, CSS, JavaScript, and frameworks like TailwindCSS to build responsive, user-friendly UIs.

Self Learning & Projects

Actively learning through courses, documentation, and personal projects. Sharing work on GitHub and improving skills every day.

Certificates & Learning

Certified Full Stack Developer Curriculum

Master frontend & backend development with HTML, CSS, JS, React, Node.js, Python, and real-world projects to become a confident Full Stack Developer.

On going

View Certificate

Full Stack Web Development with MERN

Completed MERN stack course covering frontend & backend development.

Score: 92%

View Certificate

Responsive Web Design

Learned HTML, CSS, and accessibility best practices.

Completed 100% of challenges.
